FULL STACK WEB DEVELOPER

PROFILE

A web developer with strong creative and analytical skills in building customized web pages. My previous positions were concerned with SAP ABAP and SAP Security, which helped me from designing to coding, providing roles & authorization to the user. These positions also bolstered me in communication, flexibility, problem-solving skills and customer interaction. I confidently assert my role and pursue my goals in an analytical yet creative manner while upholding an open-minded, empathetic, and collaborative spirit.
